

MUNICIPAL DEVELOPMENT AND LENDING FUND

Job Vacancy

The Municipal Development and Lending Fund (MDLF) is a financially and administratively independent institution juridical entity established by law No. 25 for the year 2016, to accelerate Palestine's drive toward high responsiveness, self-sustained, decentralized, prosperous, and creditworthy local governments. MDLF has been working intensively to improve the delivery of local infrastructure, municipal services, efficiency, and accountability and promote economic development.

The MDLF is seeking ***a qualified, experienced, results-oriented employee for the position of Environmental Specialist***

Roles & Responsibilities

The appointed Environmental Specialist is expected to carry out the following activities under the supervision of the Technical Management Department:

- Oversee the compliance with environmental safeguards that may be triggered by the project;
- Responsible for the accurate and timely assessment of MDLF projects needs in terms of environmental aspects;
- Monitor and report on the compatibility of activities performed by contractors and Municipalities with environmental standards and safeguards;
- Support the supervision of tasks related primarily to MDLF programs;
- keep abreast of the progress and results made by the civil and environmental work contracts;
- Facilitate, report and monitor the works under implementation;
- Responsible for compliance with performance and environment standards related to the infrastructure contracts;
- Contribute to the development of terms of reference and scopes of work related to the environmental activities and any other related activities as required by the Project Manager;
- Prepare the required periodically reports;
- Assist the Social Specialist in planning and achieving the Social Safeguards;
- Performing other duties as required by MDLF.

Qualifications:

- Bachelor's degree in Environmental Engineering or any related field; Master's degree is desirable;
- Experience of at least 5 years in the field of environmental engineering management and implementation of environmental mitigation procedures within municipal infrastructure projects;

- Experience of environmental studies e.g ESIA and ESMP;
- Good Knowledge of environmental and safety laws, regulations and standards including the International Environmental and Social Safeguards Polices, and Health and Safety Standards;
- Strong executive, consensus building and strategic planning skills, excellent supervision, reporting and communication skills;
- Strong computer skills including MS office applications and computer aided design software (AutoCAD);
- Fluency in English (written and spoken).
